  19. DPA letter No. EG/WK/4712/Part II/13 dated 30/08/2024
  20. DPA letter No. EG/WK/4712/Part II/29 dated 12/02/2025

Sir,

Kindly refer above cited references for the said subject.

In this connection, it is to state that MoEF&CC, GOI vide the above-referred letter dated 11/12/2013, has accorded Environmental & CRZ Clearances for the subject project.

In this regard, it is to mention here that, as the above project is to be implemented based on Public Private Partnership Guidelines of the Government (Built, Operate & Transfer Basis), Deendayal Port will grant a concession to the successful bidder (BOT/Captive Operator) for the subject project to build, operate & maintain for 30 years.

....cont....

The project is yet to be awarded. DPA is exploring the possibility of identifying the captive user for the project. No activity has been initiated to date on the project site.

In the said EC & CRZ clearance letter dated 11/12/2013, under condition 7 (General Conditions) sub-para iii, the MoEF&CC has stipulated the condition that, "A six monthly monitoring report shall need to submit by the project proponent to the Regional Office of the Ministry at Bhopal regarding the implementation of the stipulated condition".

In this regard, we are submitting herewith compliance report in the PARIVESH 2 PORTAL for the period October, 2024 to March, 2025. Further, we are also submitting herewith Monitoring Report in Data Sheet for kind information and record.

This has approval of the Chief Engineer, Deendayal Port Authority.

Yours faithfully,

XEN & EMC (I/c)  
Deendayal Port Authority

|    | b) Of the Environmental Management Plan                                                                      | <p>4. The Catenary Anchor Leg Mooring (CALM) will be envisaged for the proposed location considering the advantage of operational ease and experience of such types in operation in the Gulf of Kutch.</p> <p>5. The CALM-type SPM system comprises a buoy moored to the seabed by a number of category anchor legs connected to anchor points and a rotating part carrying the mooring and product transfer equipment.</p> <p>1. After unloading the crude oil, the seawater will be pumped into the pipeline to flush the crude oil from the floating hoses. In order to avoid the oil spill, the floating hoses will be disconnected, and the butterfly valves shall be sealed</p> <p>2. The ship under operation follows the MARPOL convention regarding discharge or spillage of any toxic, hazardous, or polluting material like ballast water, oily water or sludge, sewage, garbage, etc. the emission of NOx and SOx shall remain within the permissible limits.</p> <p>3. The smooth and safe operation of the system shall be ensured by incorporating a computerized SCADA (Supervisory Control and Data Automation) system. The computer system shall detect any pipeline leakage, and product pumping shall be immediately cut off.</p> <p>4. Adequate system for the collection, treatment and disposal of liquid waste will be provided to prevent the discharge of sewage and other liquid wastes, including ballast, into the marine environment.</p> <p>5. Disaster management plan is included in the comprehensive EIA report (NIO/SP-71/2012)</p> <p>6. Oil Spill Contingency plan has been prepared by NIO, Goa, for maintaining the better environment</p> |
| 7. | Production Details during the compliance period and (or) during the previous financial year                  | It is under Infrastructure and Miscellaneous Projects and CRZ, so production is not involved.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
