:-:TRADE NOTICE:-:

It has been observed that there are instances of delay in communication of vessel operational timings and stoppage information at the Oil Jetties, despite follow-up by the concerned Wharf Supervisor and/or Shed Master. All Vessel Agents are hereby advised to ensure that the following operational events are communicated to the Wharf Supervisor on duty immediately and without fail, in order to facilitate real-time monitoring, enhance operational efficiency, and enable pre-emptive corrective measures for reduction of non-productive time:

- Berthing and readiness status
- Hose connection and commencement of pumping
- Any operational stoppage, with reasons and expected duration
- Resumption of pumping
- Completion of cargo operations

Final pumping logs and reconciled operational timings shall be furnished promptly upon completion of operations. All Vessel Agents are requested to extend their full cooperation in this regard in the collective interest of improving berth productivity and expediting cargo operations.
